1. Log In

Log In and Log Out

1. To log in Employee One Hub, you should enter your valid credentials and confirm your login with the verification code provided by Microsoft.
2. Click on the “sign out” button in your profile icon to manually log out from the system. Unless you manually log out, your session will remain open, and your credentials will be remembered next time you open Employee One Hub.

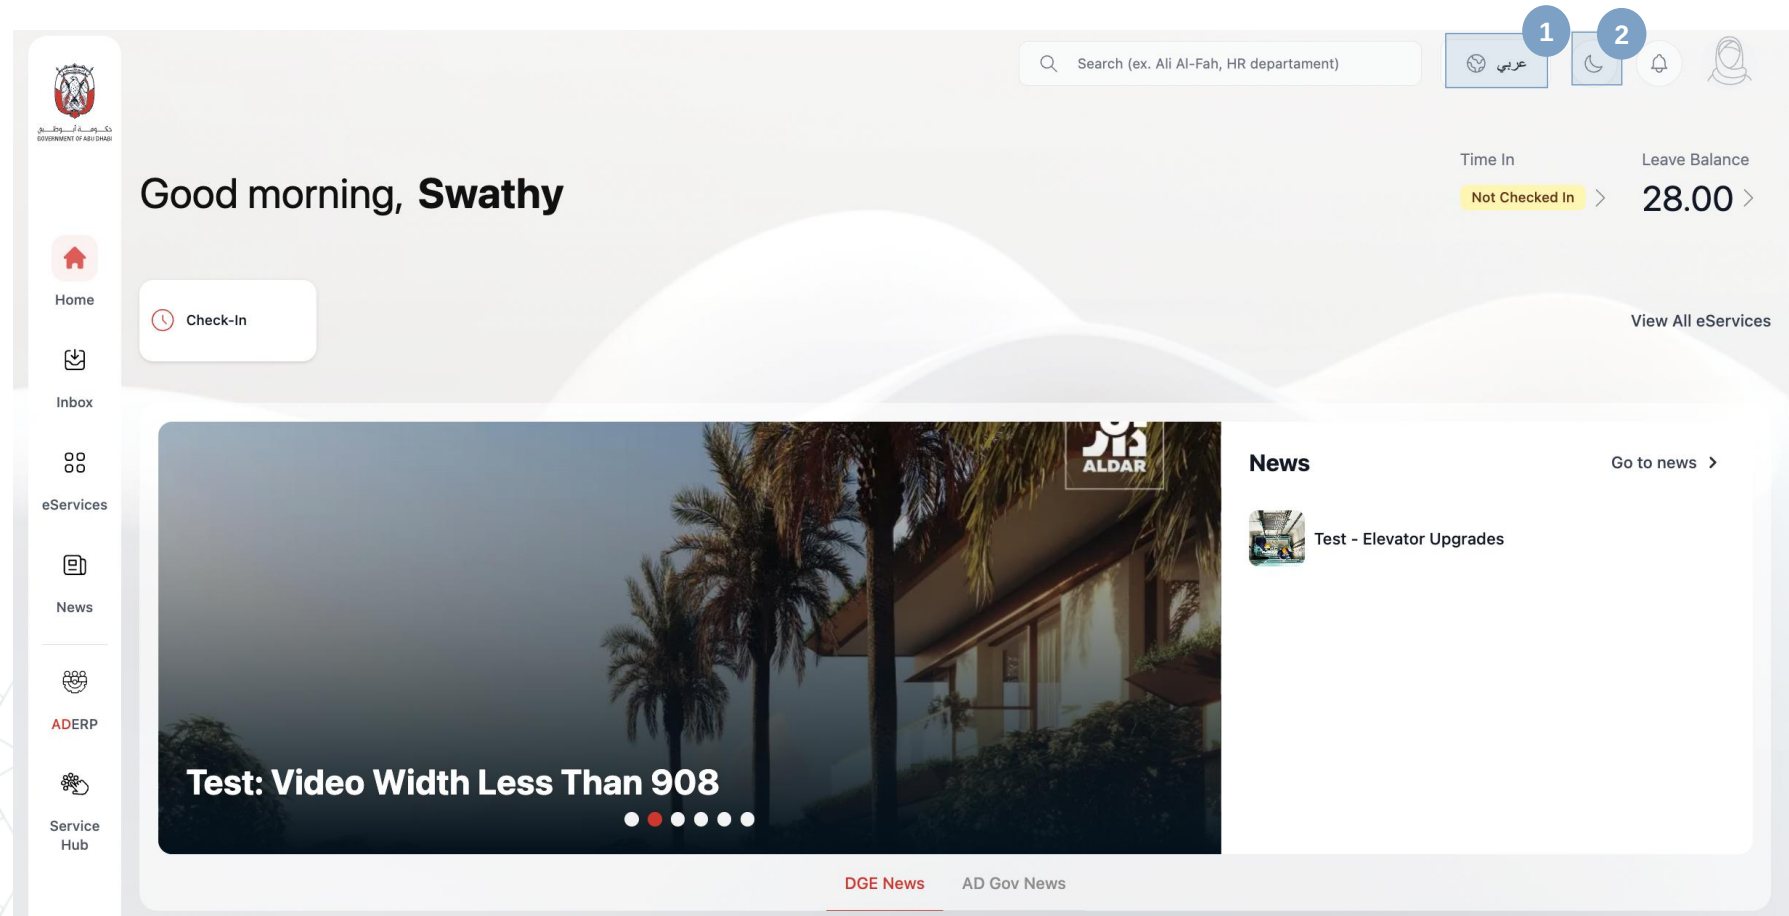

2. Landing Page

Language and Dark/Light Mode Switching

The application allows to choose between the English and the Arabic languages and between the light and the dark mode.

1. The language switching button allows you to switch between the English and the Arabic languages.
2. The mode switching button allows you to switch between light and dark modes.

E-Services Catalogue: Services and Deep Links

In the OneHub E-Services Catalogue there appear two types of services: integrated services and deep links.

1. Example of an integrated service, which opens a service inside OneHub.
2. Example of a Deep Link, opening the corresponding service in the source system outside of OneHub.

The screenshot displays the 'Services' section of the OneHub E-Services Catalogue. At the top, there is a header with 'eServices' and 'Featured Applications'. Below this is a search bar with the placeholder text 'Search for a Service ...'. Under the search bar, there are two main categories of services. The first category, labeled '1', shows 'Leave' and 'Delegation' as integrated services, each with a right-pointing arrow icon. The second category, labeled '2', shows a 'Quick Links' section with various deep links, each preceded by an external link icon. These links include 'Manage Benefits', 'Explore AD Gov Jobs', 'Directory', 'Submit resignation', 'Org Chart Search', 'Expatriate Housing New Request', 'Expatriate Housing Renewal', 'Expatriate Housing Upload Contract', 'Housing Rent Support Request', 'Health and Safety Incident', and 'Duty Travel Request'.

Services and Quick Links

The e-Services Catalogue allows to view all the available e-services.

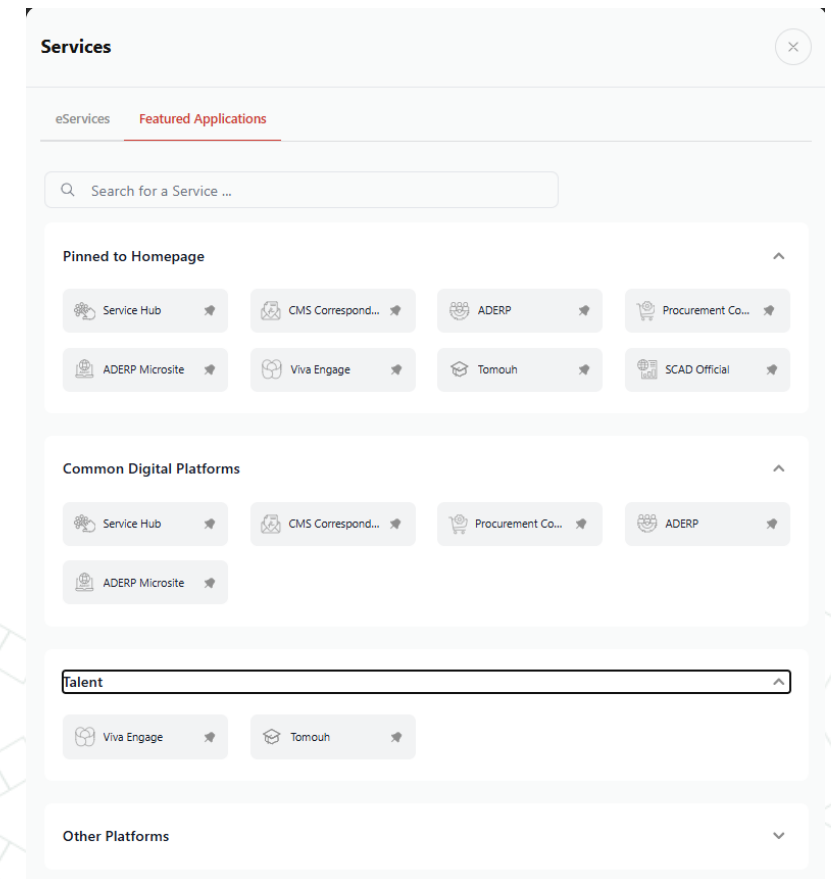

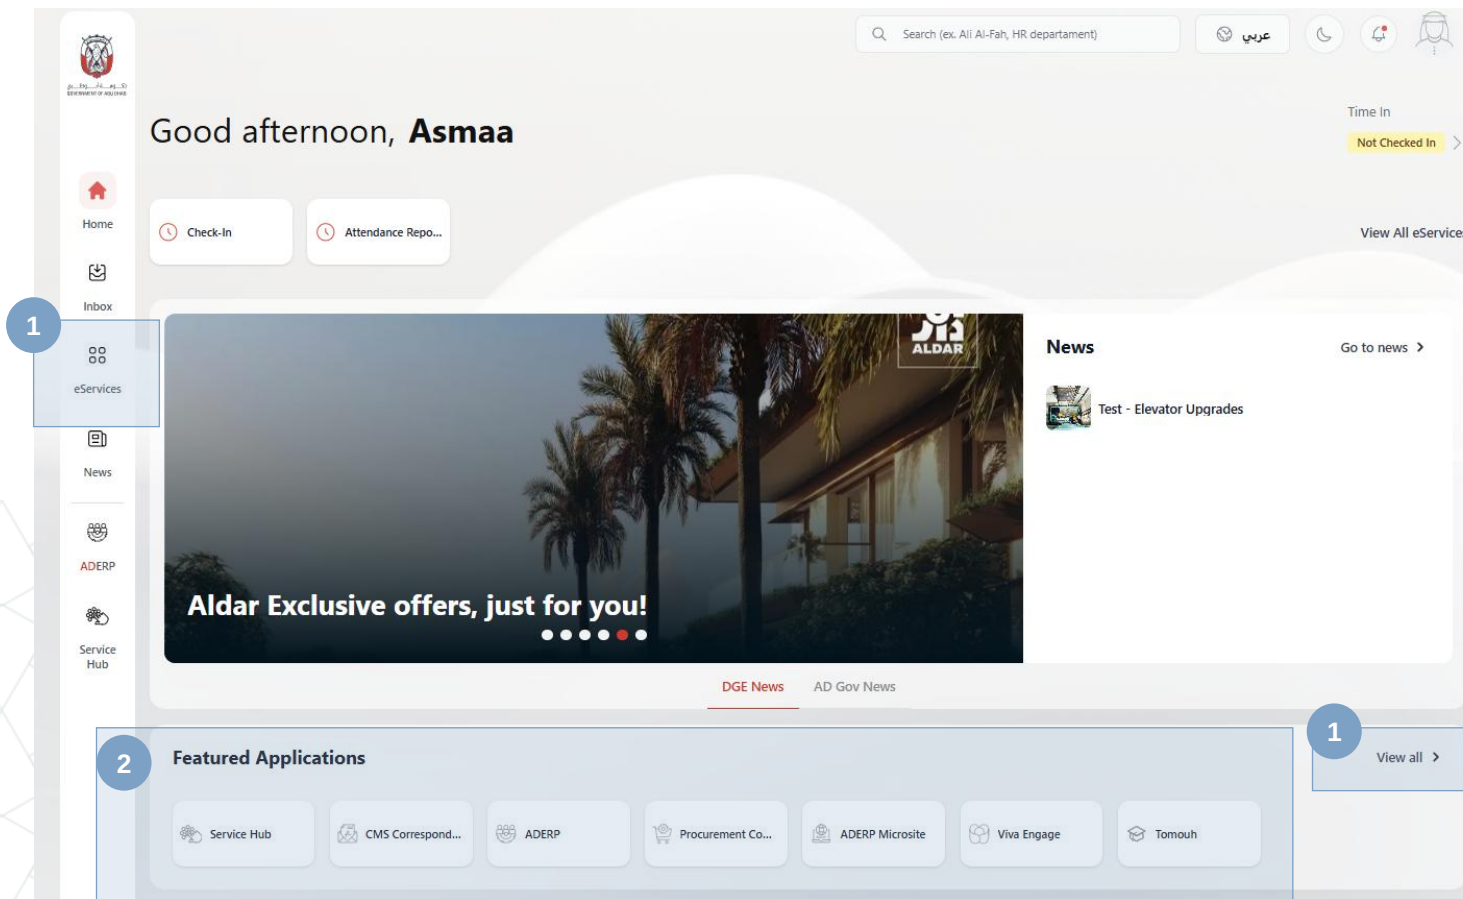

1. View the catalogue of all e-Services from the navigation menu or by clicking button 'View All e-Services'.
2. Pin and save your favorite HR services on the landing page as quick links. If you unpin an e-Service, this will disappear from the homepage.
3. Toggle the arrow button to switch between different pinned e-Services if there is more than 1.

Featured Applications and Favourites

The Featured Applications allow to easily access other websites from OneHub application.

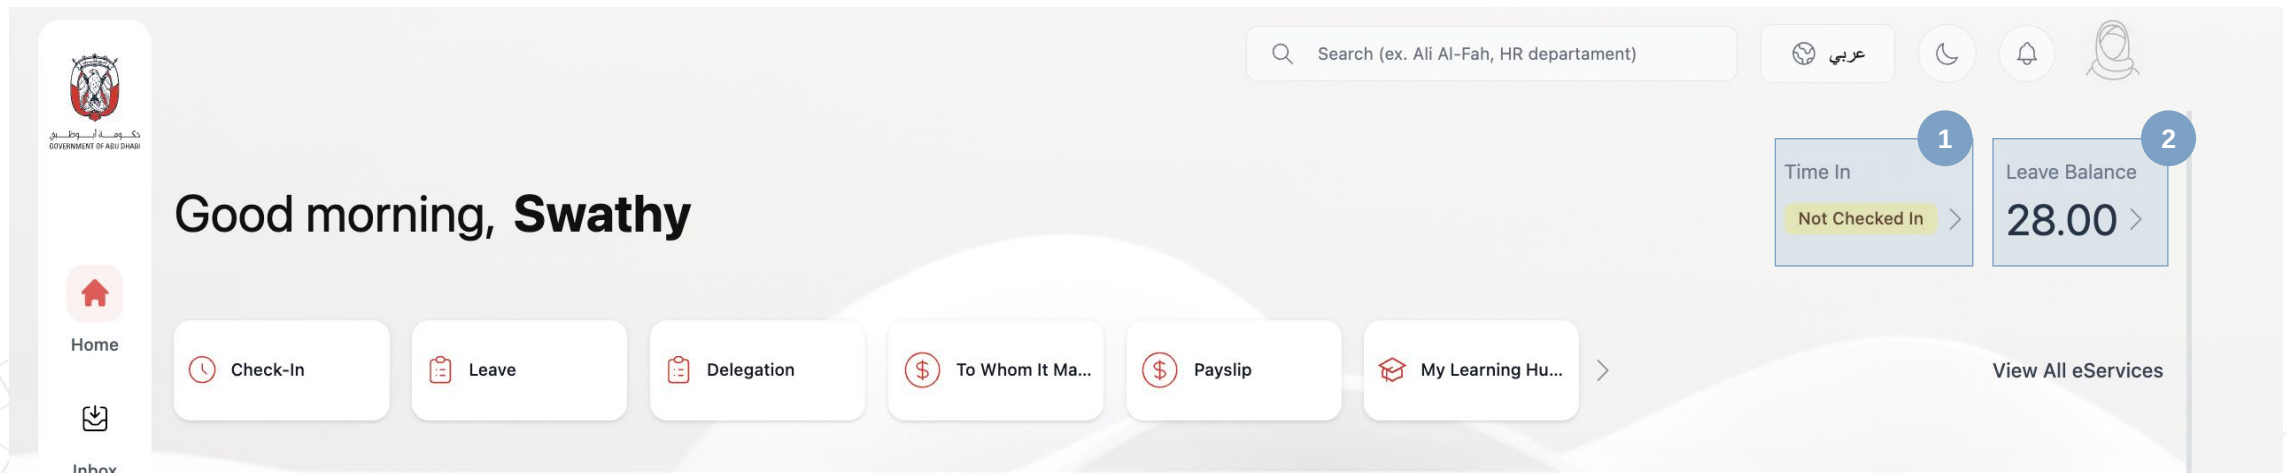

1. View the catalogue of all Featured Applications from the navigation menu or by clicking button 'View All'.
2. Pin and save your favorite Featured Applications on the landing page as quick links. If you unpin a Featured App, this will disappear from the homepage.

Widgets

Widgets have been designed to optimize your experience by streamlining access to vital tools, information and resources, ultimately improving productivity and communication.

1. **Time In widget** provides transparency regarding your attendance, making it easier to manage work schedules and identify attendance trends.
2. **Leave Balance widget** enables you to track leave balances, including vacation, sick leave, and other types of time off, ensuring you are aware of your available leave days.

Widgets

3. Inbox

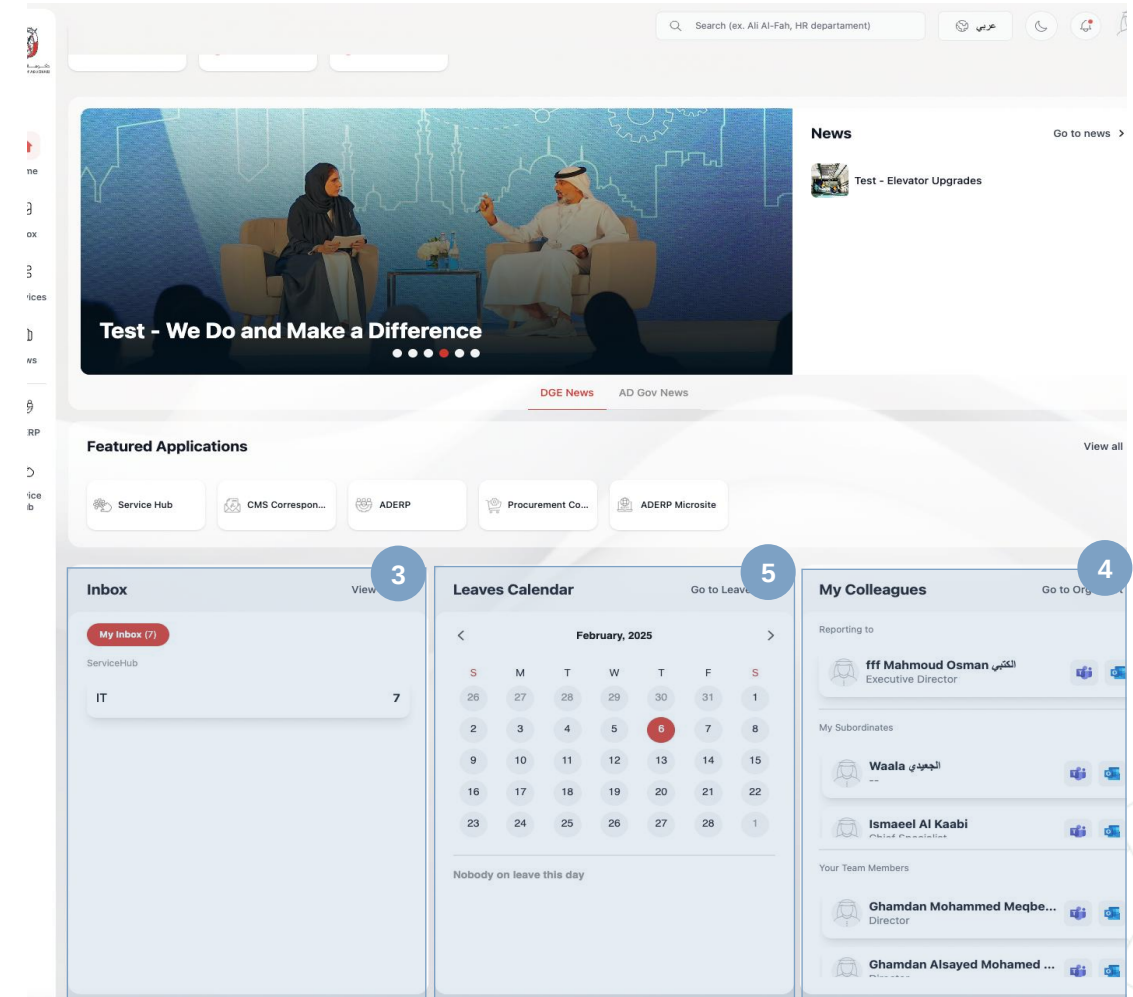

The Inbox widget allows you to view notifications categorized by type, as well as access detailed information for each notification. It's a tool for managing communication and tasks, ensuring that you can stay organized, respond promptly, and efficiently collaborate with colleagues.

4. My Colleagues

The widget provides the list of your colleagues who have the same supervisor, and your direct subordinates, including names and roles, followed by the supervisor's details. Using this widget allows you to easily contact colleagues from your team in MS Teams and Outlook applications. When you click Go to Org Chart, the Fusion page with the corresponding section will be opened.

5. Leaves Calendar

It allows you to see colleagues who are out of office due to vacations, sick leaves, or other leave types. You can better distribute work and responsibilities when you know who is on leave. This prevents overloading and helps maintain a balanced workload.

Widgets

6. Upcoming meetings

The widget helps you manage your time, stay organized, and effectively collaborate within the company, ultimately contributing to improved productivity and efficiency. You can easily join the meeting and access meeting details such as time, location, and title ensuring you have all the necessary information to participate effectively.

7. My Documents

The widget provides quick and convenient access to recently used Microsoft documents (e.g., Word, Excel, PowerPoint), saving you time and effort in locating and opening files. You can resume work on recent projects or documents without the need to search through folders or email attachments, thus enhancing overall productivity.

The screenshot displays a dashboard interface with a sidebar on the left containing navigation icons for Home, Inbox, eServices, News, ADERP, and Service Hub. The main content area features several widgets:

- Inbox:** A widget showing a folder icon and the text "Nothing to show. It seems like no new actions in inbox."
- Leaves Calendar:** A calendar for February 2025. The 6th is highlighted in red. Below the calendar, it says "Nobody on leave this day".
- My Colleagues:** A list of colleagues including Sanaa Jumaa Humaid (Section Head), Wasan Mahdi Ahmed Moham... (Officer), Rashed Ahmed Al Hosani (Senior Specialist), Mohammed Matar Salem Mat... (Senior Specialist), and Mo'Men Asal (مساعد الهنائي).
- My Upcoming Meetings:** A widget showing a calendar for February 6th. It states "You have no meetings for this day".
- My Documents:** A list of documents including profile.pdf, profile (1).pdf, Hello world-2.pdf, profile (2).pdf, profile (3).pdf, -03-14_2024-03-01_24571_الموظفين_1-2024.pdf, DownloadFile-3.pdf, profile (4).pdf, DOFBANKLETTER-1.pdf, Payslip287212931.pdf, Payslip287216442.pdf, and profile (6).pdf. All documents are marked as "Modified 4 months ago".

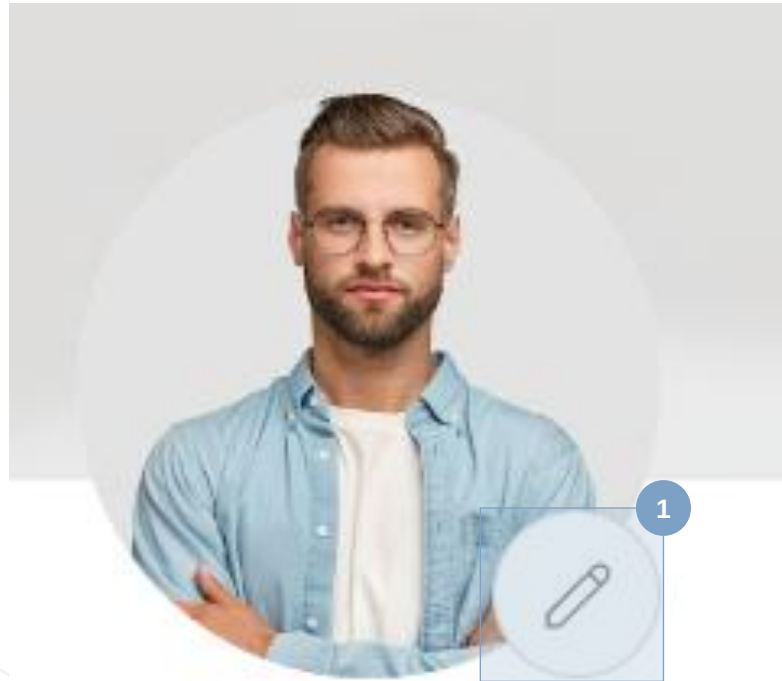

Numbered callouts 6 and 7 are present on the "My Upcoming Meetings" and "My Documents" widgets respectively.

3. User Profile

Employee photo

1. You could update the employee photo from the user profile. When you click on the button, Fusion page with the corresponding section should open.

User Profile

User Profile: Overview

User Profile contains different types of information related to the profile. It is organized in several tabs and several tables that allow quick navigation.

1. General Info

This section contains information about your email, work and mobile phone, work address as well as your manager.

2. Employee Details

The section has the information about your employee number, Emirates ID, email, date of birth, gender, marital status, religion, nationality, as well as additional information (i.e. full name, mother's name, previous nationality, etc.) if available. When you click 'Edit', Fusion page with the corresponding section should open.

3. Phone Details

Here the information about the available phone numbers is displayed. You could see more information as well as edit the data when you click button 'View'. You could also add a new phone by clicking 'Add Phone Details'.

User Profile

User Profile. Qualifications

1. Qualifications

The Qualifications section contains information about your qualifications such as education level, completion date, major. When you click 'Edit', Fusion page with the corresponding section should open.

The screenshot displays the 'Education' section of a user profile in the ADERP system. The user is Tareq Naseeb Al Hosani, an Analyst in the DGE Quality Assurance & Field Audits department. The 'Education' tab is selected, showing a table with one entry: Bachelors in Applied Media Science, completed on May 30, 2019, with a major in Media. An 'Edit' button is visible in the top right corner of the table. The interface includes a sidebar with navigation options like Home, Inbox, eServices, News, and Service Hub, and a top header with a search bar and user controls.

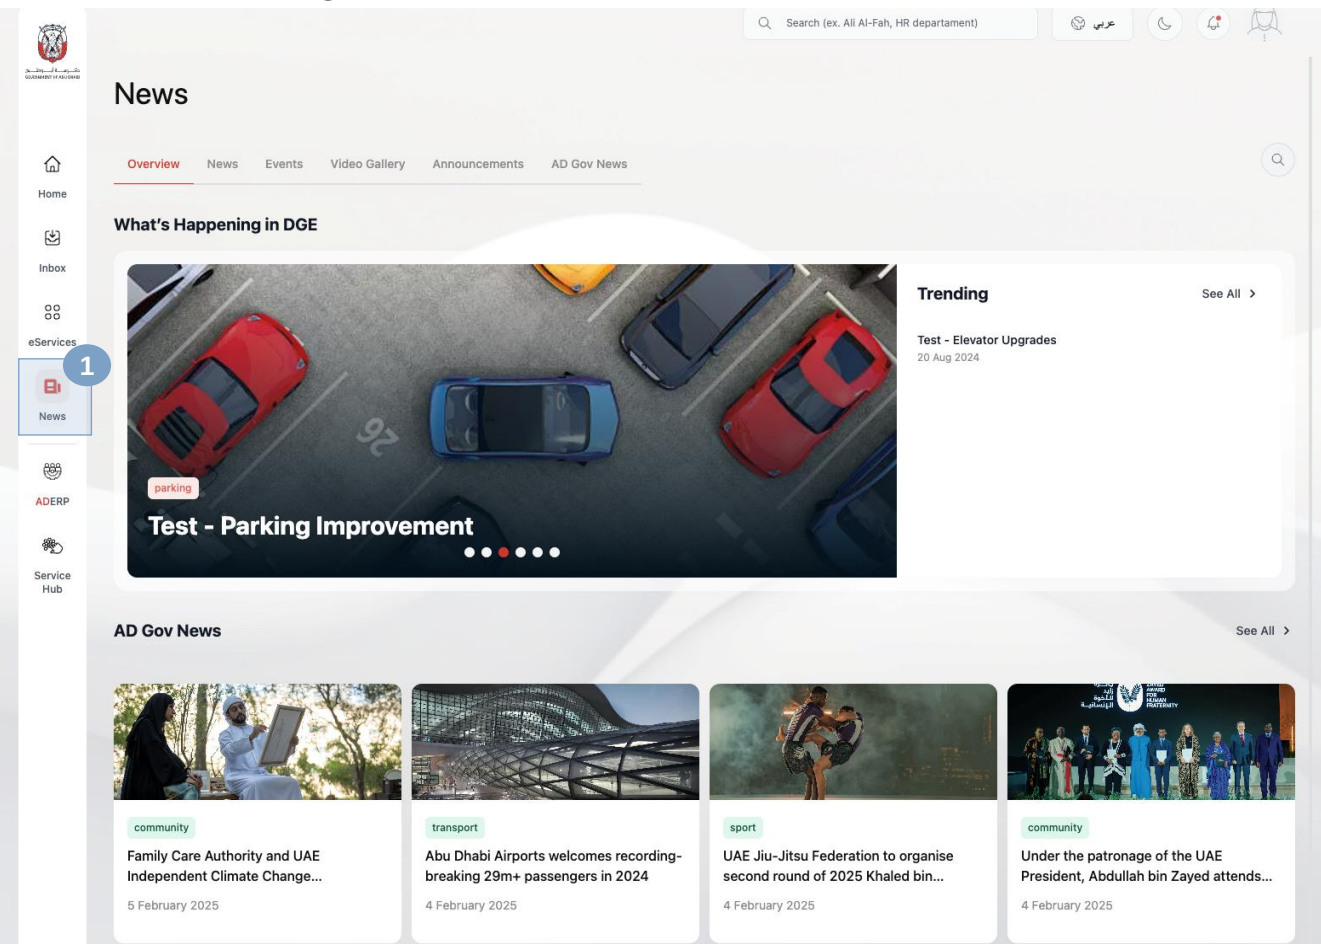

EDUCATION LEVEL	COMPLETION DATE	MAJOR
Bachelors in Applied Media Science	May 30, 2019	Media

4. News

News

1. The **News page** ensures that you remain up-to-date with unfolding global and national events, equipping you with the knowledge needed to make informed decisions that may directly influence the trajectory of the business and its day-to-day operations. This collective awareness fosters a culture of adaptability, where employees are prepared to respond effectively to changing circumstances and steer the organization toward continued success.

5. Time and Attendance

Permission Request and Approval

For requesting the permission to be out of the office during the working hours, use the Leaves service, which is accessible by clicking the Leaves in HR section, or Permissions in the Time & Attendance section of the E-Services catalogue.

1. Click 'New Request'
2. In the opened New Leave Request form, select the type of leave which corresponds to the purpose: 'Missing Swipe Regularization', 'Official Hours', or 'Shortfall Regularization'

The screenshot displays the 'Leaves' service interface. On the left, there's a sidebar with 'Leaves' and 'Pin to Homepage'. The main area shows a 'New Leave Request' form with a dropdown for 'Absence Type' (labeled '2') and a list of leave types including 'Missing Swipes Regularization', 'Official Hours', and 'Shortfall Regularization'. A red 'New Request' button (labeled '1') is in the top right. Below the form is a table with columns 'DURATION', 'DOCUMENTS', and 'STATUS'. The table lists three requests, all with a status of 'Awaiting approval'.

DURATION	DOCUMENTS	STATUS
day	1	Awaiting approval
day	1	Awaiting approval
day	1	Awaiting approval

Permission Request and Approval

1. Specify start and end dates, other mandatory fields, upload additional documents and add comments if needed.
2. Upon submitting the request, it will be sent for an approval.
3. The created request will also appear in the Leaves list on the main page of the Leaves e-Service with an 'Awaiting Approval' status.
4. Upon approval, the request in the list will change the status.

Check In and Drive Safely

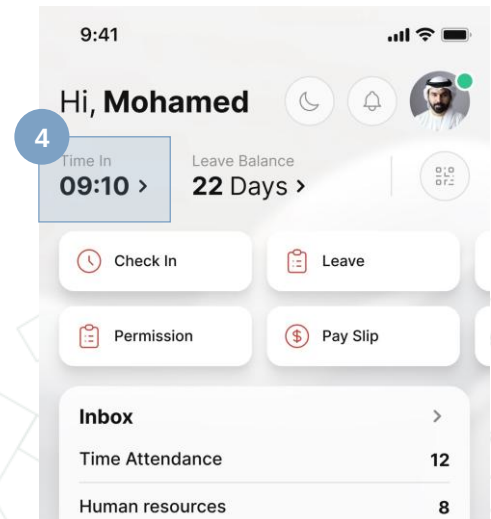

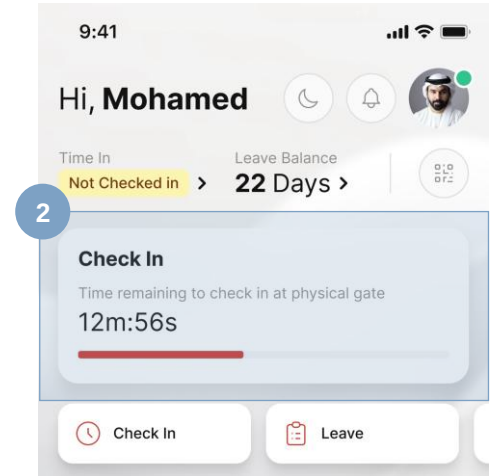

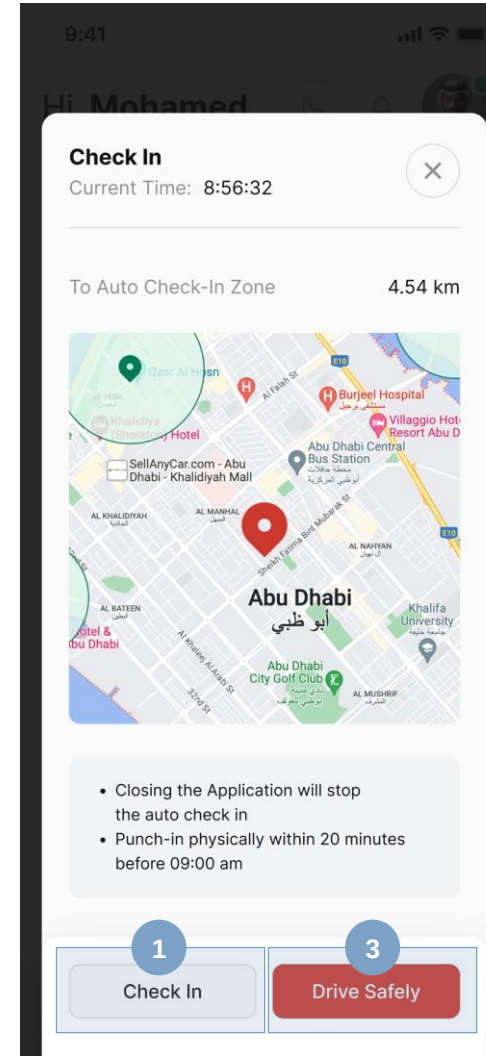

In the Employee One Hub application, you can use the 'Check-In' and Drive Safely' feature to remotely log your entry to the workplace once you arrive to the office neighbourhood .

1. Click on the 'Time In' widget in the header of the application.
2. Alternatively, you can select the 'Check In' service in the Time and Attendance section of the e-Services catalogue.

Check In and Drive Safely

1. In the Check In form, select the 'Check In' option if you're already in the office neighbourhood.
2. The 20 minutes countdown timer will start showing how much time is left for you to get to the office. Failing to arrive at the office within 20 minutes will discard your remote check-in.
3. Select the Drive Safely option if you're not yet in the office location. Upon arriving at the office neighbourhood, the system will automatically perform check in, and the 20 minutes countdown timer will start.
4. When you arrive to the office, the check in operation will be completed. You can view your official check-in time reflected in the web or mobile home screen.

6. E-Services

Leaves

The 'Leaves' e-Service allows you to create a new leave request, see information about yours and your team members' leaves. Managers are also able to view their subordinates' leaves.

1. Click on the 'New Request' button to create a new leave request.
2. The pin/unpin from Homepage button allows to pin/unpin the Leave e-Service to/from the Homepage.
3. The 'My Leave, My Colleagues, My Subordinates' tab allows you to see information about yours and your team members' leaves, as well as your subordinates' leaves if you are a manager.

The screenshot shows the 'Leaves' e-Service interface. At the top right, there is a search bar and a '+ New Request' button (callout 1). Below the search bar, there is a 'Unpin from Homepage' button (callout 2). The main content area has three tabs: 'My Leaves', 'My Colleagues', and 'My Subordinates' (callout 3). The 'My Leaves' tab is active, showing a date range 'Jan 1, 2025 — Dec 31, 2025' and a table of leave requests. The table has columns for TYPE, START DATE, END DATE, DURATION, DOCUMENTS, and STATUS. The table contains four rows of leave requests.

TYPE	START DATE	END DATE	DURATION	DOCUMENTS	STATUS
Annual Leave	Feb 27, 2025	Feb 27, 2025	1 day	1	Awaiting approval
Sick Leave	Jan 10, 2025	Jan 10, 2025	1 day		Denied
Annual Leave	Jan 7, 2025	Jan 7, 2025	1 day		Awaiting approval
Sick Leave	Jan 2, 2025	Jan 2, 2025	1 day		Withdrawn

Leaves

4. The 'Filter' option allows you to filter the leave requests by status and by date.
5. Toggle the arrows beside the columns to sort your leaves in ascending or descending order.
6. The pagination option allows to see the total amount of leaves and switch between pages.
7. Click on the 'clip' icon to view attached documents.

The screenshot shows a web application for managing leaves. It includes a sidebar with navigation links (Home, Inbox, eServices, News, ADERP, Service Hub) and a main content area titled 'Leaves'. The main area has a search bar, a 'New Request' button, and tabs for 'My Leaves', 'My Colleagues', and 'My Subordinates'. A date range filter is set to 'Jan 1, 2024 — Dec 31, 2025'. A table lists various leave requests with columns for Type, Start Date, End Date, Duration, Documents, and Status. Callouts 4 through 7 highlight specific features: 4 points to the 'Filter' button, 5 points to the column headers, 6 points to the pagination controls at the bottom, and 7 points to the document icon in the 'Documents' column.

TYPE	START DATE	END DATE	DURATION	DOCUMENTS	STATUS
Annual Leave	Feb 27, 2025	Feb 27, 2025	1 day	1	Awaiting approval
Sick Leave	Jan 10, 2025	Jan 10, 2025	1 day		Denied
Annual Leave	Jan 7, 2025	Jan 7, 2025	1 day		Awaiting approval
Sick Leave	Jan 2, 2025	Jan 2, 2025	1 day		Withdrawn
Official Hours	Dec 31, 2024	Dec 31, 2024	2 hours		Awaiting approval
Official Leave	Dec 30, 2024	Dec 30, 2024	1 day	2	Awaiting approval
Sabbatical Leave	Dec 27, 2024	Dec 27, 2024	1 day	1	Awaiting approval
Missing Swipes Regularization	Dec 26, 2024	Dec 26, 2024	4 hours		Awaiting approval
Annual Leave	Dec 25, 2024	Dec 25, 2024	1 day	2	Awaiting approval
Study Leave	Aug 26, 2024	Aug 28, 2024	3 days		Completed

Delegation

Delegation e-Service allows you to delegate approval responsibilities to another employee. This delegation is intended to ensure that approval requests assigned to you, if any, can be promptly processed by colleagues during your absence.

1. Click on the "New Rule" button to create a new delegation request.
2. Fill out the form to add a new request
3. Click the "Submit" button

To Whom It May Concern

This e-Service enables you to independently and efficiently generate your own salary certificates and letters in PDF format, offering a quick process.

1. Select the required parameters to generate a document.
2. You may preview the generated letter.
3. Click the “Download” button to download the PDF file of the generated document.

The screenshot shows a web interface titled "To Whom It May Concern" with a close button (X) in the top right corner. The interface contains two main input fields: "Type" and "Submit To". The "Type" field is a dropdown menu currently showing "Salary Letter (Gross Salary)". The "Submit To" field is a text input box currently showing "Abu Dhabi National Islamic Finance (ADNIF)". Below these fields, there is a preview area showing a PDF file named "GLB_SALARY_LETTER_GROSS_SALARY.pdf". To the right of the preview area are two buttons: a download button (represented by a downward arrow icon) and a preview button (represented by an eye icon). Three blue circular callouts with white numbers are overlaid on the interface: callout 1 points to the "Type" dropdown, callout 2 points to the preview button, and callout 3 points to the download button.

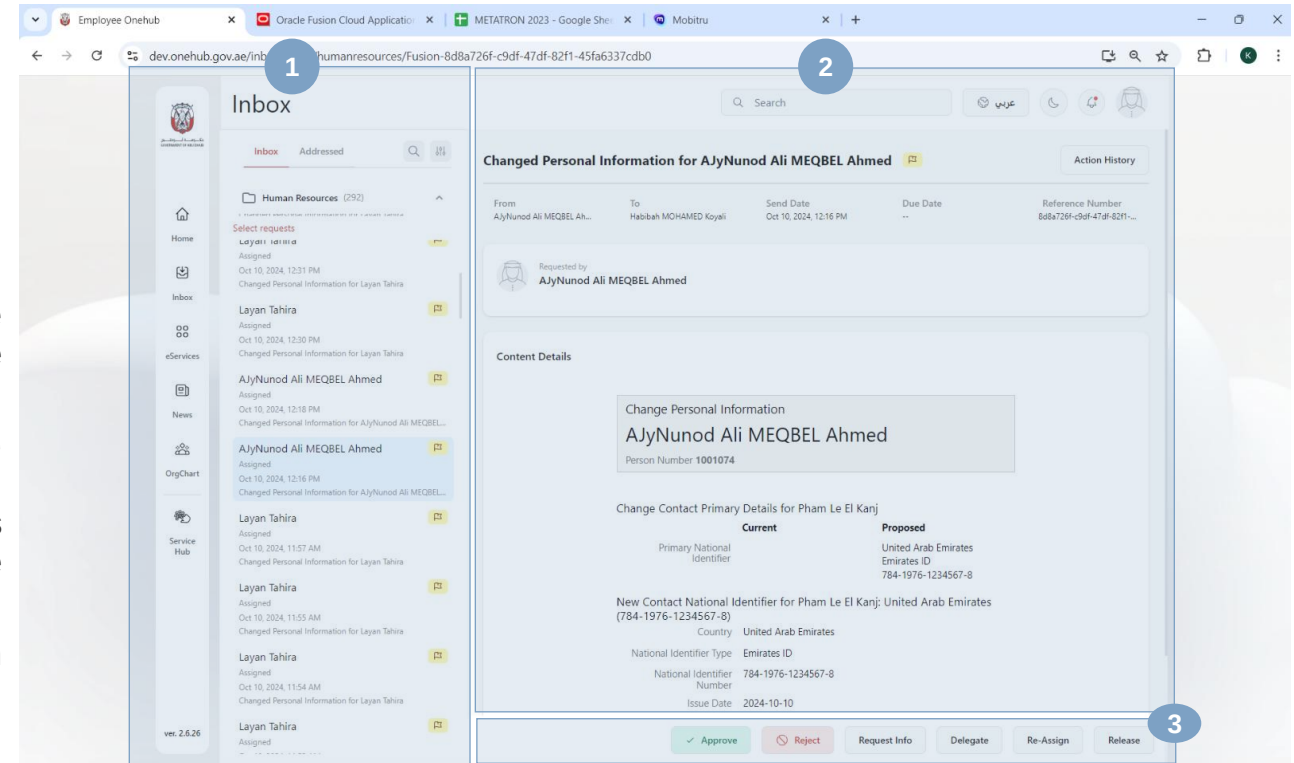

7. Inbox and Notifications

Inbox and Notifications

Inbox displays the notifications you receive in different categories.

1. View a list of the notifications in your inbox. The list is organized in the categories based on the source systems (like ADERP, Time & Attendance, ServiceHub) and on the e-Services catalogue for your convenience. Here you could see the name of the requestor, the date and time when the notification was sent and the subject of the notification.
2. By default, the notifications details are empty unless you click on one of the notifications from the list. When you click on the notifications, you could see its details, such as the requestor, the notifications details, uploaded documents and the action history on the notifications.
3. The system will display the available actions that you could do with the notifications in the details.
4. To view the original Fusion notification, you may click View original. Then the Fusion page with the request details will be opened.

Original ADERP Notification

By clicking the button you will see the original notification in pop-up.

Inbox and Notifications

If you have access to the Service Hub, then you will be able to receive the Service Hub notifications in One Hub:

1. You will see the source system called ServiceHub in your Inbox. The list is organized like other categories with the folders for your convenience. Here you could see the name of the requestor, the date and time when the notification was sent and the subject of the notification.
2. You could also view the details of the service hub notification with the actions available.
3. In order to view the original ServiceHub notification, you may click View in Service Hub. Then the Service Hub page with the request details will be opened.

The screenshot displays the One Hub interface. On the left is a sidebar with navigation icons for Home, Inbox, eServices, News, and Service Hub. The main area is titled 'Inbox' and shows a list of notifications under 'My Inbox (969)'. A notification from 'onehubdev11' is selected, showing details like 'Nov 29, 2024, 06:12 PM' and 'Ticket Created-Salary Discrepancy case for onehubdev11'. A blue circle with the number '1' highlights the 'View in Service Hub' button next to this notification. To the right, a detailed view of the selected ticket is shown, titled 'Ticket Created-Salary Discrepancy case for onehubdev11'. It includes fields for 'From', 'To', 'Send Date', 'Due Date', and 'Reference Number'. Below these are 'Content Details' including 'NAME', 'CONTENT', 'Opened By', 'Opened For', 'Opened On', 'State', 'Short Description', 'Description', 'Latest Comment', and 'Updated On'. A blue circle with the number '2' highlights the 'View in Service Hub' button at the bottom right of the ticket details. At the bottom of the screen, a banner titled 'Original ServiceHub Request' states 'By clicking the button you will be redirected to the original notification.' and features a 'View in ServiceHub' button with an external link icon. A blue circle with the number '3' highlights this button.

Inbox and Notifications

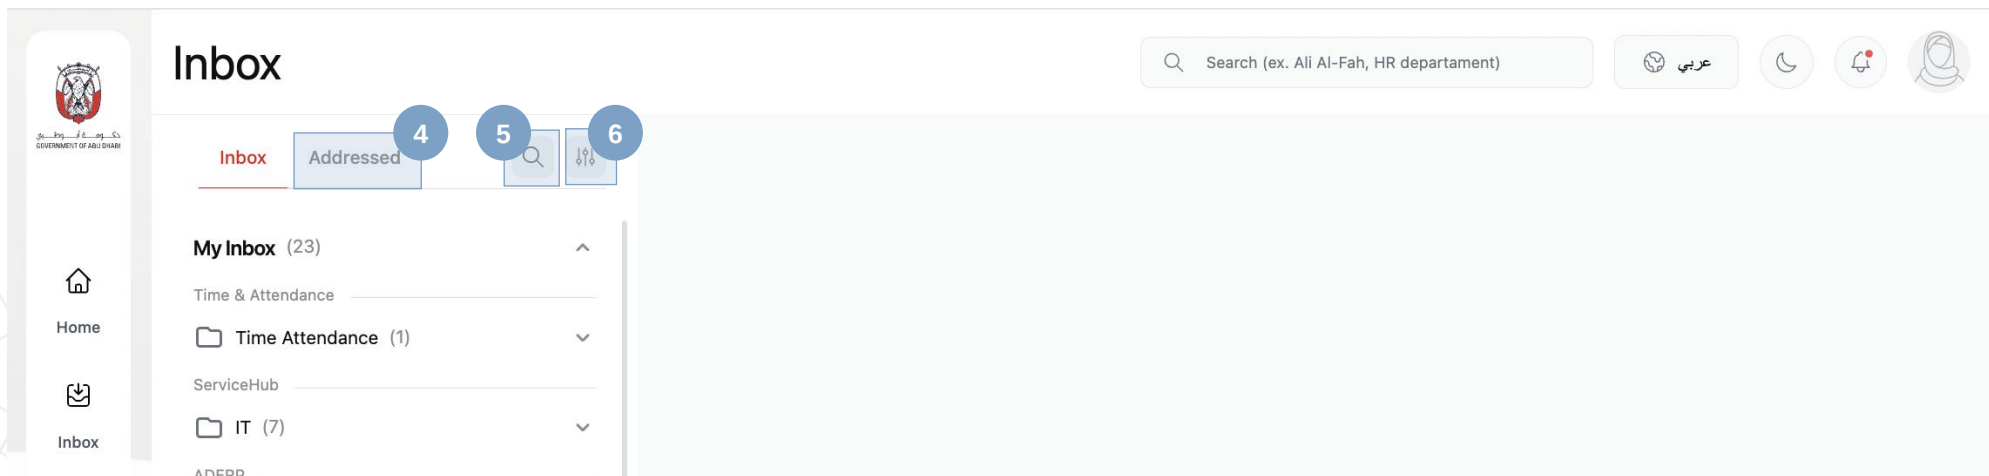

If you have access to the Correspondence Management System (CMS), then you will be able to receive the CMS notifications in One Hub:

1. You will see the source system called Correspondence in your Inbox. Folders correspond to the structures (departments) user belongs to. Here you could see the purpose, the name of the requestor, the date and time when the notification was sent, the reference number, and the subject of the notification.
2. You could also view the details of the correspondence together with the attachments. If there are more than one attachment, a user could switch between them.
3. You will also see the list of the available actions in the notifications.
4. You could view the last comment left for the correspondence.

Inbox and Notifications

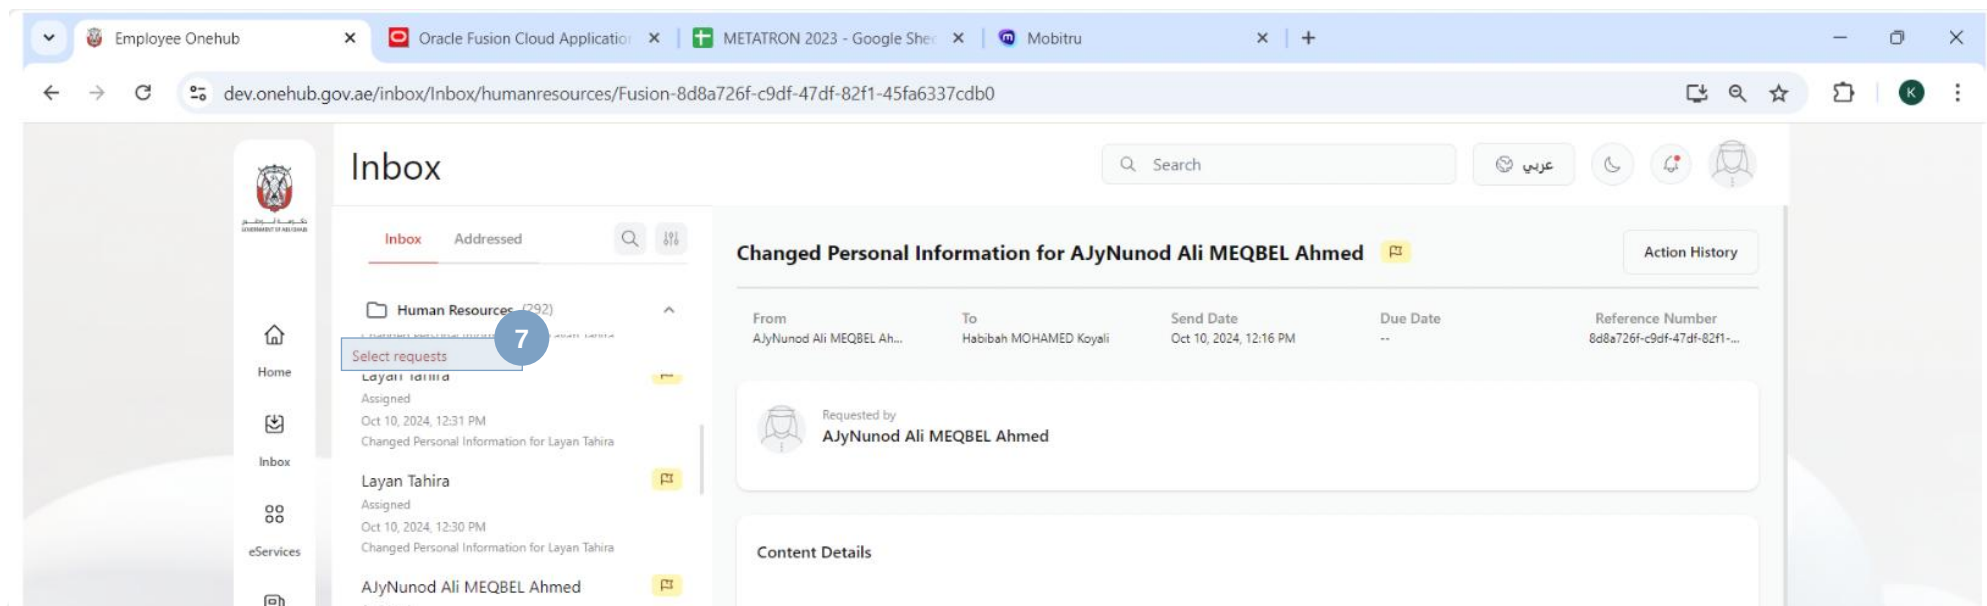

4. In the 'Addressed' tab (former 'Tracking' tab) , you can see the notifications that are already processed. The notifications you will see in the 'Addressed' tab will have the same categorization as in the Inbox.
5. You can search the specific notifications. The search applies separately to Inbox and Addressed. The system searches based on the requestor, the reference number, and the subject of the notifications. For the search to be initiated, at least 3 symbols should be entered.
6. You can filter the notifications by type and by date. The filtering applies separately to Inbox and Addressed tabs.

Inbox and Notifications

7. You can apply bulk update to the notifications in the Inbox for quick processing of several notifications of the same type. To do that, you need to click button 'Select requests' and choose the requests you'd like to process. Then the available actions for these notifications will be displayed and you could choose what you would like to do.

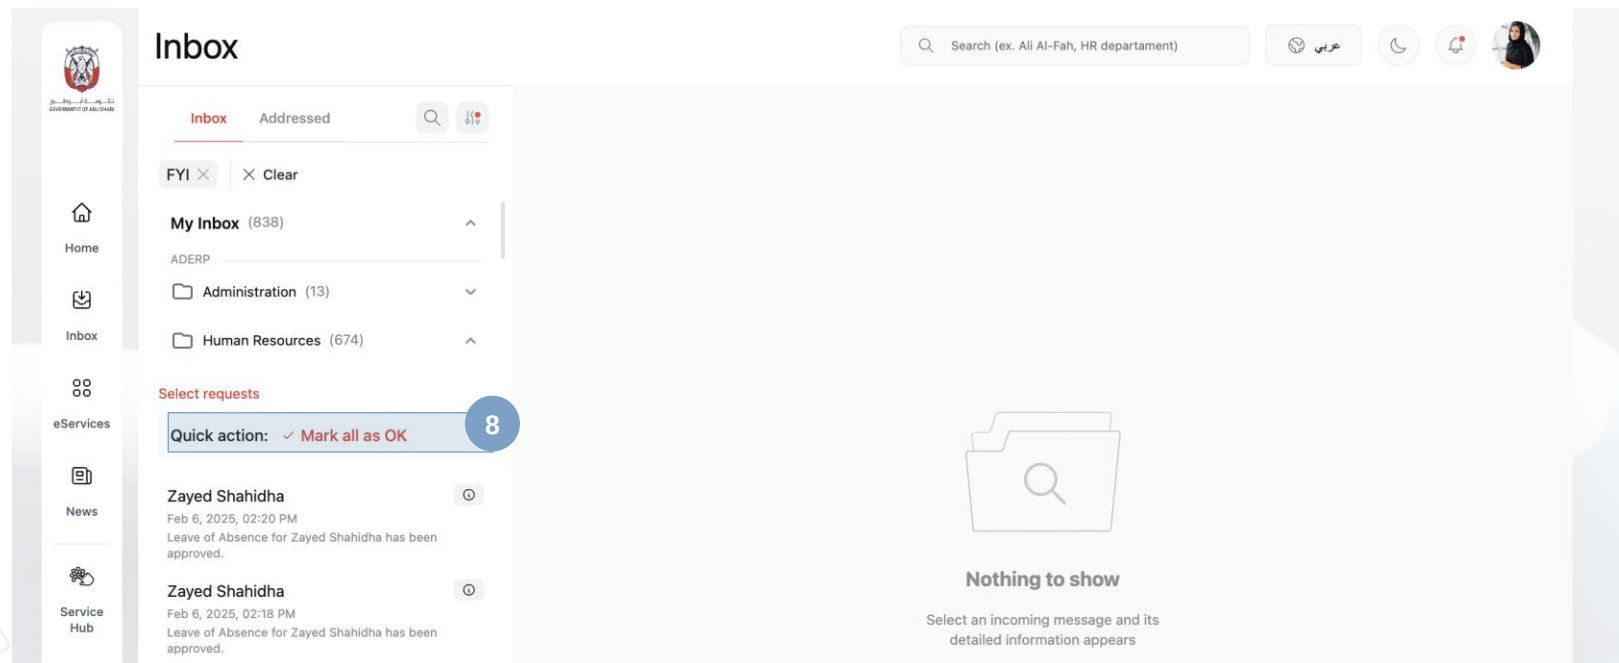

Note: Please keep in mind that the actions are available only for the notifications of the same type. If you choose different types, like actionable and FYI notifications, then no bulk actions will be available.

Inbox and Notifications

8. You have Quick actions available for the FYI notifications that allow you to quickly process the FYI notifications without going in details. To do that, you need to filter the notifications in the Inbox by the type FYI.

As soon as all the FYI notification will be filtered, you will see the button “Mark all as OK”. When you click this button, you will see the modal window allowing you to leave the comment. When you confirm the action, the notifications will be processed accordingly.

Inbox and Notifications

1. You could also view the notifications in the header of the web or mobile application when you click on the bell icon. If you have new notifications, you will see the red dot in the icon.
2. When you click the bell, you will see the notifications menu, where your notifications will be displayed. The notifications are organized in two main categories: FYI (just the information) and FYA (requiring some actions from your side).
3. When you click 'Show More' for the category, you will see the list of the notifications with the quick actions: Approve or Reject for FYA and OK for FYI notifications. If you click the specific notification, the Inbox with the details of the selected notification will be displayed. When you complete any action, the message with the result of the operation will be displayed.
4. For FYI notifications, you have the quick action that allows you to apply the OK action for all the available FYI notifications.
